

Has your retirement **NEST EGG** cracked?

The Government recently announced a halving of the amount that can be contributed to a superannuation fund on a concessionally taxed basis. This will result in many Australians being unable to fulfil their retirement dreams. Or will it?

Kylie Wright and Mick Toohey, our Financial Strategists, have developed a number of dynamic strategies that will enable you to continue to accumulate wealth in a more effective manner.

We will be holding special strategy briefings to outline some of the new opportunities available. Please mark your diary now and contact Deb Ward on 4154 0411 to reserve your place.
